

# 6711 siafleece flex

The flexible one, for even finishing applications

## 6711 siafleece flex – The flexible one, for even finishing applications

Thanks to its low material thickness, the 6711 siafleece flex is highly flexible and adaptable to contours. It is therefore especially good for keying in hard-to-reach areas. Minimised grit shedding means longer life and reduced material consumption.

### Applications

- For manual sanding
- Matt finishing of hard-to-reach areas
- Matt finishing of new components and factory primers
- Matt finishing of lacquers prior to final lacquering

### Advantages

- Highly flexible and adaptable to contours
- Consistent scratch pattern due to improved grit consistency
- Long lifetime
- Can be used wet or dry
- No clogging
- Minimised grit break-out

Grit range	P280	P320	P400	P500	P600	P800	Dimensions	Article ID
very fine	■	■	■				115x230 mm, 4½x9 inch	0948.3321.6921.01
ultra fine				■	■	■	115x230 mm, 4½x9 inch	0948.3321.8711.01
