

1918 sialac

The lacquer sanding professional with optimum removal rate and long lifetime

The lacquer sanding professional with optimum removal rate and long lifetime

Unlike most other lacquer sanding belts, 1918 sialac has aluminium oxide grains to ensure that especially high removal rates are achieved. Thanks to the stearate coating, the lifetime of the belt is noticeably increased.

- ▶ Low clogging thanks to open coating
- ▶ High stock removal with good finish
- ▶ Perfect surface finishes thanks to TopTec

Product profile

Grit type:	Semi-friable aluminium oxide
Grit range:	P180 - P600
Backing:	e-wt paper
Coating:	Electrostatic open
Bonding:	Resin over resin
Special coating:	Stearate
Technology:	TopTec
