

2511 siabite

the performance specialist for powerfile sanders

the performance specialist for powerfile sanders

2511 siabite abrasive belts are designed especially for powerfile sanders and provide maximum efficiency on high-alloy steel and other hard to grind metals thanks to the self-sharpening effect of the ceramic grit.

- Less machine interruptions thanks to long lifetime
- Minimal effort required thanks to highly aggressive abrasive grit
- Heat-reduced cutting thanks to active additive with cooling effect
- More efficiency thanks to the highest performance
- Improved flexibility for power files thanks to special flexing

Product profile

Ceramic aluminium oxide Grit type:

Grit range: 36-120 y-wt cloth Backing: Coating: Closed

bonding: Resin over resin Special coating: Cooling additive

Use

Applications

- Weld preparation
- Sanding down
- Deburring
- Smoothing and blending of flaws
- Removing discolouration
- Surface treatment
- Structuring and final sanding

Materials

High-alloy steels

Technology

siafast
