

# 6924 siamet hd

high-performance discs for surface finishing of steels

# high-performance discs for surface finishing of steels

The high-performance discs in the 6924 siamet hd series offer an exceptional removal rate on hard materials and also impress with their exceptionally long lifetime. An excellent, even finish is yet another advantage.

- ▶ Major time-saving thanks to highest aggressiveness and highest stock removal rates
- Excellent performance on hard materials
- More durable so more resistant on edges
- Much less smearing tendency than existing products; especially at the edge of the disc when working at tight angles
- Excellent and consistent finish over a long period of time

## **Product profile**

Grit type: Aluminium oxide
Backing: Nonwoven
Coating: Mechanical
bonding: Resin over resin

### Use

#### **Applications**

- Smoothing and blending of flaws
- Sanding down
- Light deburring
- Removing polishing scratches
- Removing discolouration
- Removing paint
- Removal of rust

#### Materials

Unalloyed / low-alloy steel; High-alloy steels; Stainless steel (inox); Ferrous metal; Non-ferrous metal; Stainless steel (inox); Steel
