

the ideal solution for rubber, plastic and teflon rolls

5702 microtec is ideal for surface finishing of rubber, plastic and Teflon rolls. The silicon carbide finishing product with a polyester backing with anti-slip coating and a resin over resin bonding offers first-class quality combined with high efficiency.

Advantages

- For clearly defined standard scratch depth values
- Maximum durability
- Even cross sanding
- High-gloss polished surface finish
- May be used wet or dry, resistant to coolant
- Grit is calibrated very precisely for fine surface finish

Applications

- Finishing of rubber and plastic rollers
- Finishing of Teflon rollers
- Finishing of test objects (metallurgy)

Product profile

Grit type: Silicon carbide
 Backing: Polyester film with anti-slip tape
 Coating: Electrostatic
 bonding: resin over resin

Properties

The following properties refer to the materials used in the main application:

Materials

Rubber; Plastics; Glass; Stone; Non-ferrous metals

Application

Area
Metal

Product line
Coated abrasives
