

optimised for sanding of fittings

As a specialist product for sanding fittings, the flexible silicon carbide belt 2747 siatur offers high adaptability to contours, curves and profiles and produces first-class results in applications ranging from deburring to structuring and final sanding of hard to grind metals and non-ferrous metals.

Advantages

- This series is ideal for grinding fittings
- Excellent surface quality
- Highly adaptable to contours, curves and profiles

Applications

- Surface treatment
- Deburring
- Smoothing and blending of flaws
- Structuring and final sanding

Product profile

Grit type: Silicon carbide
 Backing: jj-wt cloth, cotton
 Coating: Closed
 bonding: resin over resin
 Coating: Cooling additive

Properties

The following properties refer to the materials used in the main application:

Materials

Non-ferrous metals; Other metals with poor chip removal properties
