

the durable fibre disc for steel and non-ferrous metals

Thanks to high stock removal rates, durable and quality finish, the special 4919 siaral 8 series for unalloyed and low-alloyed steels as well as non-ferrous metals is an excellent product for a wide range of applications.

Advantages

- A versatile all-round product
- Excellent price/performance ratio
- Firm fibre backing

Applications

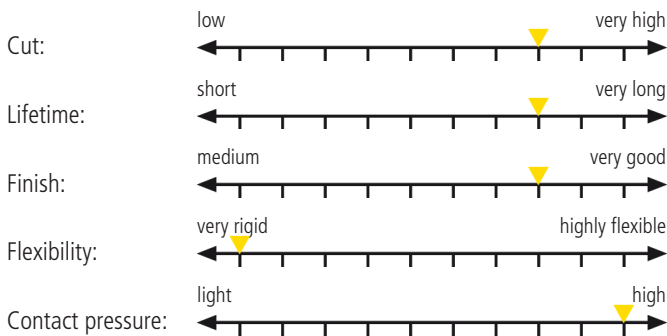

- Removal of rust
- Weld preparation
- Removing discolouration
- Sanding down
- Surface treatment
- Deburring
- Smoothing and blending of flaws

Product profile

Grit type: Aluminium oxide
 Backing: Fibre
 Coating: Closed
 bonding: resin over resin
 Coating: Cooling additive

Properties

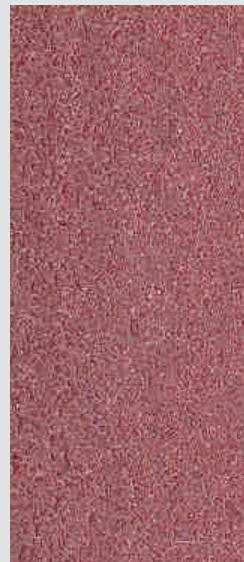

The following properties refer to the materials used in the main application:

Materials

Unalloyed / low-alloy steel; Non-ferrous metals
