

the flexible and powerful solution for an optimal surface finish

Whether as a disc or as a belt – 6250 sia scm fleece abrasives are versatile wet and excel in the dry sanding of steels thanks to long life, high stock removal rates and perfectly conditioned surfaces.

Advantages

- Long lifetime
- Excellent surface quality
- Suitable for general use in dry and wet sanding applications

Applications

- Deburring
- Removal of rust and paint
- Removing discolouration
- Surface treatment
- Smoothing and blending of flaws
- Structuring/finishing

Product profile

Grit type:	Aluminium oxide
Backing:	Fleece
Coating:	Mechanical
bonding:	resin over resin

Properties

The following properties refer to the materials used in the main application:

Materials

Unalloyed / low-alloy steel; High-alloy steel

Application

extra coarse

coarse

medium

very fine
