

the fibre backed abrasive disc for excellent stock removal rates
4561 siabite achieves outstanding results and very long life. The highly aggressive and fast fibre disc is ideal for sanding stock removal from unalloyed and low alloy steel as well as non ferrous metals. Another advantage: the firm fibre backing.

Advantages

- High removal rate thanks to ceramic grit
- Very efficient and productive
- Extremely long lifetime
- Firm fibre backing

Applications

- Removal of rust
- Welded seam preparation
- Removing discolouration
- Sanding down
- Surface treatment
- Deburring
- Smoothing and blending of flaws

Product profile

Grit type: Ceramic aluminium oxide
Backing: Fibre
Coating: Closed
bonding: resin over resin

Properties

The following properties refer to the materials used in the main application:

Materials

Unalloyed / low-alloy steel
